-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
2. Claims 1-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
3. Several phrases in the claims are vague, misleading and/or indefinite, for an example: "wherein...packaged" (claim 1, lines 11-13) and "wherein... packaged (claim 7, lines 13-16), it not clear what exactly applicant meant by an unchanged position of an open end opposite the one closed side keeps an unchanged position independent of the format of the object to be packaged.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-2 and 6-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over in view of Achelpohl et al. (4115183).

Petersen discloses method and apparatus for packaging flat objects (1, fig. 1), comprising the steps of continuously forming a quasi-endless web of a packaging material (29, fig. 1) into a string of bags (42, 42', fig. 11) that are open on three sides

and closed on one side, conveying the string of bags in a conveying direction, charging each of the bags with at least one flat object (1), severing the bags (knives 114, fig. 3) from the string of bags, and sealing the bags by seams corresponding to the open bag sides (119-121, 120', 121', figs. 18-21), and wherein, a distance between two seams corresponding to lateral open sides of the bag, in the step of sealing the bags is adjusted to the width of the packaging material (see col. 7, lines 42-46), which meets all the claimed limitations.

Regarding claims 2 and 8, the bags are charged from above through the one open side opposite the one closed side and are secured (with arm 122-123 and 122'-123', see fig. 21) in an area of the open side from before the steps of charging and severing to the step of sealing.

Regarding claim 6, the packaging material (29) is a weldable plastic foil.

Allowable Subject Matter

6. Claims 3-5 and 9-16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
